canstruction® jr

Friday, March 27, 2020

- The American Society of Civil Engineers West TN Branch Younger Members Group is organizing a Canstruction® competition to take place Friday, March 27, 2020 at The University of Memphis.
- Canstruction® is a design competition in which teams enter and compete against one another to make the best design out of canned food items. Visit www.canstruction.org for more details!
- After the competition all of the cans used in the designs will be donated to the Mid-South Food Bank to help those most in need.
- Our competition is open to K-12 students, with college engineering students and professional engineers serving as mentors. This is a great way for students to learn engineering design principles while having fun and giving back to the community!
- Participating teams will be sponsored by local firms. Full sponsorships at $400, and half sponsorships at $200 are available. Please consider sponsoring a team!!! See our local event website for more detail (click on Get Involved tab): http://www.memphiscanstructionjr.com

To volunteer to serve as a mentor, or for more information about sponsoring a team, contact:
